

The Polylok Drain Well is an easy to install dry well used to collect, retain, and discharge storm water. Our Drain Well allows the flexibility to choose your inlet and leaching locations. The Drain Well cover allows for a 4" surface drain and is equipped with two recessed handles for easy removal. One of our Drain Well's greatest features is its ability to accommodate stacking of Polylok 24" risers to accommodate higher volumes of water.

**Features:**

- Easy to install **one piece design**
- Inlet and leaching location flexibility
- Lid will accept a 4" surface drain
- Lid is equipped with two recessed handles
- Accepts any Polylok 24" riser
- Built in anti-flotation ring
- Holds 56 gallons
- Customizable accessories available

**Kit Includes:**

- 24" Lid
- 24"x12" Riser (QTY: 2)
- 24" Anti-Flotation Ring

**Part Number:**

3008-DWK

**ONE  
PIECE  
DESIGN**

**HOLDS  
56  
GALLONS**

**INSTRUCTIONS:**

This image illustrates suggested inlet and leaching locations. A 4½" hole saw is recommended when drilling a 4" inlet and/or optional surface drain hole on the lid. Use a 1½" hole saw when drilling leaching locations. No more than twenty 1½" holes per 12" section is recommended.

**AVAILABLE OPTIONS**

24" x 2" Riser  
Part #: 3008-GR2

24" x 3" Riser  
Part #: 3008-RP

24" x 6" Riser  
Part #: 3008

24" x 12" Riser  
Part #: 3008-R12

24" Basin  
Part #: 3008-R12B

Flow Gate (overflow release)  
Part #: PDB-4PE-GN

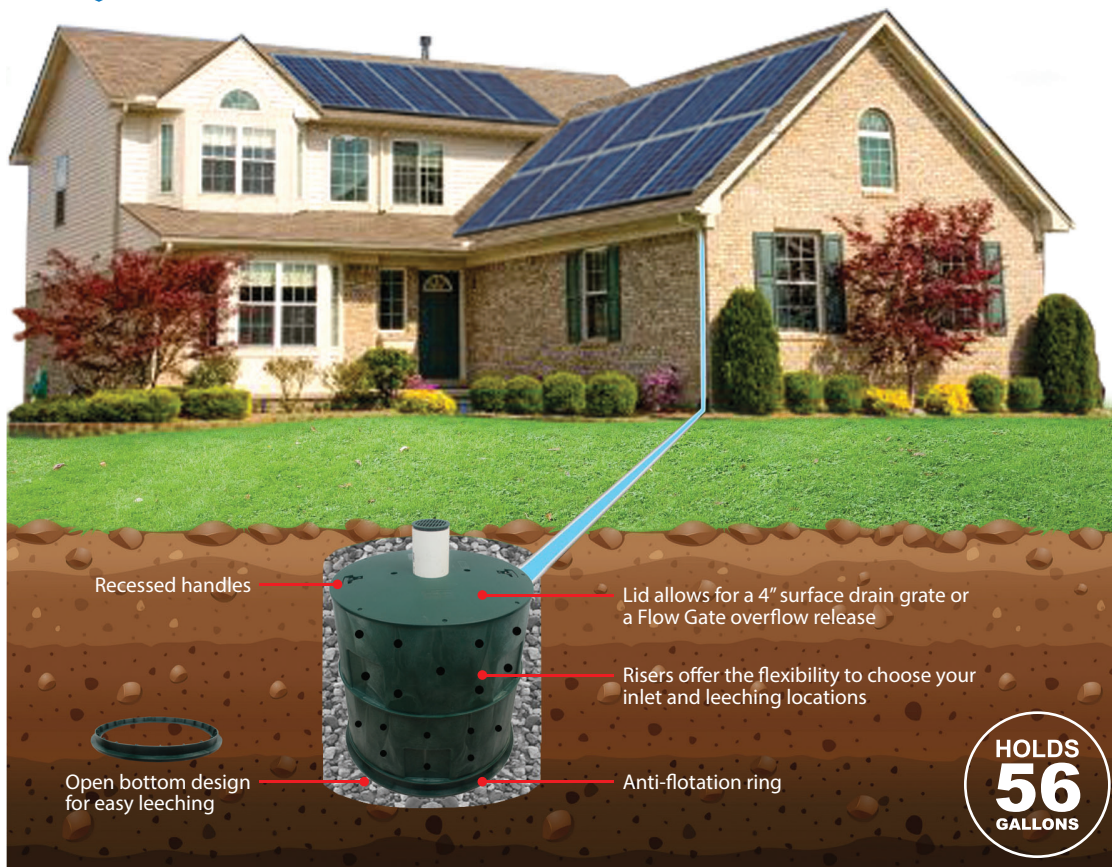

4" Surface Drain Grate  
Part #: PDB-4G-BK (Black)

4" Surface Drain Grate  
Part #: PDB-4G-GN (Green)

24" Heavy Duty Grate  
Part #: 3008-G24
